

Spring Clean-Up A Huge Success

By Susan Savetwith
Mohican News Reporter

The spring and fall clean-up is an event put together with collaboration between the Stockbridge-Munsee Environmental Department, Public Works, and Harters Fox Valley Disposal.

Folks in the community residing in the town of Bartleme are given a date whereby they can put refuse out on the curb and it will be cleared away on that date by Harters. In addition, there are dumpsters provided at the Stockbridge-Munsee Roads Department on County Highway A where Electronics, Appliances, and Tires can be discarded. Folks are given a date when the dumpsters will be made available, but they are left there for a week.

According to Stockbridge-Munsee Public Works Director, Stacey Schreiber, this year's dumpsters were full within the first two hours. This year tire recycling was added and Schreiber says it will continue. When asked about the cost of disposal for tires, Schreiber indicated there was a grant to fund it. "We are happy to have the tires dropped off here, it keeps them off the roadsides and out of the woods, rivers, and streams," Schreiber said.

Schreiber indicated the amounts recycled with the Spring & Fall Clean-up dumpsters and at Tribal buildings 2013-2016. This year was extremely successful,

Are You Under Cyber Attack?

By Susan Savetwith
Mohican News Reporter

A recent massive ransomware attack that reportedly hit more than 45,000 computers in 74 countries worldwide has sparked a rise to action with all Information Technology (IT) teams across the country and across the world. The Stockbridge-Munsee Community and North Star Mohican Casino Resort IT team is working diligently to get ahead of the possible threat.

Stockbridge-Munsee's Management Information System's Chief Information Officer, Mary Thao, is leading the preventative measures here.

"Ransomware is a type of malicious software that carries out the crypto-viral extortion attack that blocks access to data until a ransom is paid and displays a message requesting payment to unlock it."

Thao indicated the necessity to act immediately but with diligence to make sure making

Chief Information Officer Mary Thao

it very complicated for hackers to penetrate the computer environment. She sent out a communication to all employees explaining the steps being executed to ensure safeguards are in place. While this email was sent to inform employees, readers can take the same steps to ensure the safety and wellbeing of their own computers.

Is my water safe?

This report is a summary of last year's water quality. Included are details about where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. We are committed to providing you with information because informed customers are our best allies.

This report covers the monitoring period between January 1, 2016 and December 31, 2016.

Where does my water come from?

In a typical community water supply system, water is transported under pressure through a distribution network of buried pipes. Smaller pipes, called house service lines, are attached to the main water lines to bring water from the distribution network to your house. In our community water supply system, water pressure is provided by pumping water up into the storage tanks that stores water at higher elevations than the houses they serve. The force of gravity then "pushes" the water into your home when you open your tap. After the water is pumped, it is treated with chlorine.

The drinking water distributed through the community system originates as rainwater that percolates through the ground

and is naturally filtered as it travels through the soil and rock. The water is most susceptible to becoming contaminated at the earth's surface. As the water travels underground both down gradient and from areas of greater pressure to least pressure, water collects in what is known as aquifers. Our wells are drilled into ground water aquifers and we pump water to the surface to use as drinking water.

The Stockbridge-Munsee Environmental and Legal Departments created the Groundwater Protection ordinance to ensure that rainwater is not contaminated at the earth's surface before the water reaches the community drinking water system's groundwater aquifer. The drinking water system groundwater aquifer lacks confining layers, which could stop the movement of pollutants. Instead, the groundwater aquifer is composed of sand and gravel, which allows contaminants to move downward rapidly. The Groundwater Protection Ordinance can be found on the Internet at www.mohican.com/tribalordinance.html.

Source Water Assessment and Protection Plans and their availability

The Environmental Department has also completed a source water

assessment and protection plan. The source water plans helped the Tribe identify potential contaminant sources and determined the susceptibility of each of the three wells, which support the Tribal drinking water system. Please contact the Stockbridge-Munsee Environmental Department at 715-793-4818 for a copy of the Source Water Plans or for more information.

Why are there contaminants in my drinking water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or

from human activity.

Contaminants that may be present in source water include:

Microbial contaminants, such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife. Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.

Pesticides/herbicides, that may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.

Organic Chemical Contaminants, including synthetic and volatile organic chemicals that are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.

Radioactive contaminants can be naturally-occurring or be the result of oil and gas production and mining activities.

STOCKBRIDGE-MUNSEE COMMUNITY BOWLER, WISCONSIN REQUEST FOR PROPOSALS CURATION FACILITY DEVELOPMENT SERVICES May 24, 2017

I. INTRODUCTION
The Stockbridge-Munsee Community ("Owner" or "Tribe"), a federally-recognized Indian Tribe, is seeking proposals from qualified firms/individuals to draft archeological curation policies, procedures (including fee table), and recommendations for the Historic Preservation Office's existing facility to meet industry standards. This will involve on-site assessment and cataloguing of the existing collection, which includes archeological materials and paper records.

New York State, New Jersey, Massachusetts, Pennsylvania and Vermont—that are required to be curated in a suitable facility close to the site. The Tribe has a desire to curate more of its own cultural materials from these projects, with the ability to then loan them to the Tribe's Wisconsin facilities as desired.

A. Review current Historic Preservation Office curation conditions and needs

• Working with current Historical Preservation Office employees, Bonney Hartley, Gladys Jacobs, the Historical Preservation Committee and the Tribal Administrator, Linda Mohawk-Katchenago to gather all necessary information and gain insight.

B) Draft Curation Policies:

• Review existing draft Curation policy manual and revise based on industry standards in order to establish a Curation Policies that will:

1. Safeguard artifacts
2. Meet all regulatory requirements such as Secretary of Interior standards for Curation of Archeological Collections (36 CFR 79.9)
3. Include a fee table for this curation service

C) Draft a Standard Operations Manual

• Identify industry standards regarding curation and incorporate into a Standard Operation Procedure Manual (SOP):

- i. To include procedural standards where the staff's activities will:
 1. Safeguard artifacts
 2. Properly archive/code artifacts
 3. Establish lexicon for adding paper records into Past Perfect software

D) Preliminary Cost Estimates

• Include recommendations on additional funding sources

E) Timeline

• Recommend a timeline for implementing changes identified in the assessment.

It is anticipated that the firm/individual selected will be required, at minimum, to make site visits and conduct interviews with appropriate personnel to derive a final set of policies and SOP.

II. SCHEDULE
Sealed proposals for the services requested in this RFP **will be received until Friday, June 16th, 2016 at 4:30 p.m., Central Time. Proposals must be identified as being "Proposal for Stockbridge-Munsee Historic Preservation Office"** on the outside of the envelope. Proposals **may not be** transmitted via telephone, fax or email. Proposals shall be delivered to the:
Stockbridge-Munsee Tribal Secretary
N8476 Moh He Con Nuck Rd
PO Box 70
Bowler, WI. 54416
Telephone: 715-793-4387
(All questions regarding the proposal submission should be sent to Jerilyn Johnson at 715-793-4387.)

The Owner reserves the right to conduct interviews and anticipates that the successful proposer will be selected by July 5, 2017.

The successful firm/individual will be expected to complete an assessment that will consist of a formal report to the Stockbridge-Munsee Tribal Council that addresses and makes recommendations on the following items:

III. PROJECT AND SCOPE OF SERVICES

The Tribe has a Historic Preservation program which has offices both on the reservation and a satellite office in Troy, New York. The main function of the Historic Preservation program is to carry out consultation work pursuant to the National Historic Preservation Act (NHPA) Section 106 in order to protect Mohican and Munsee cultural sites. The Troy, New York office has a temporary curation facility which houses a limited amount of archeological materials. These artifacts are from Section 106 projects that have occurred in the tribe's cultural areas of interest in the Northeast—areas within

IV. PROPOSAL REQUIREMENTS

At a minimum, proposals must contain the following information:

Thanks from the family of Venny Taylor

The family of Venny Taylor would like to thank the Stockbridge Munsee Community, family, and friends for all the love and unconditional support we received throughout her journey of both life and death.

It was amazing to see everyone come together to help make her final months beautiful and unforgettable.

The kindness of others has

never gone unnoticed and was very much appreciated.

There was so much help with her final services that took the burden off of our family! Everything turned out exactly as she wanted it. There is no community like ours and for that we are grateful!

Thanks for everything,

The Taylor Family

1. Company/individual history.
2. Identify the bidder's qualifications to provide the proposed services.
3. Identify experience with public or private curation facility assessments, particularly noting any relevant tribal curation experience.
4. Identify experience in completing policy, procedure and fee tables.
5. Describe the process proposed to provide these services.
6. Examples of work in the in the past five (5) years in curation, policy, procedure development.
7. Identify the timeline to complete services including proposed time required to be on-site in the Troy, New York facility.
8. Describe methods to be used to ensure that the project will be completed on time and within budget.
9. State the total fee for these services and specify proposed reimbursable costs in detail.
10. Identify key personnel and the areas of responsibility for each including the Owner's contact and any on-site personnel.
11. Provide at least 3 client references, which we may contact.
12. Identify any deviations from this RFP.

Any proposals not including the proposal requirements listed above will be deemed non-responsive and will be subject to rejection. Questions

concerning this RFP shall be forwarded in writing, by fax or mail to the Stockbridge-Munsee Tribal Administrator, N8476 Moh He Con Nuck Rd, Bowler, WI. 54416, Office: 715-793-1307.

V. ADDITIONAL INFORMATION

The successful bidder will be selected in accordance with Tribal bid policies. This RFP does not commit the Tribe to award a contract or pay any costs associated with the preparation and presentation of a proposal. The Tribe reserves the right to revise the selection process and in its sole discretion, to accept or reject any or all responses to this RFP. The Tribe may negotiate with or request additional information from any or all considered contractors. The Tribe may waive informalities or irregularities in a proposal. The Tribe reserves the right to reject any or all proposals and to choose the proposal deemed the most advantages to the Tribe.

The successful bidder will be required to enter into a written contract with the Tribe. The successful bidder will be required to obtain and maintain all appropriate insurances, including errors and omissions, general liability, vehicle and worker compensation coverage's. The successful bidder must not engage in discriminatory conduct and will not be a barred contractor under the Tribal or federal contracting requirements. The successful bidder will work closely with the Management Team and designated staff during all phases of the project.

Additionally, the successful bidder will provide a written timeframe to complete the work.

Elder Wisdom

Two Bowler Public School Students Win "Student of the Year" Awards at the 2017 Wisconsin Indian Education Association

The 2017 Wisconsin Indian Education Association Annual (WIEA) Conference theme was "Mino-Ayaa'Idiwin –Let's Be Healthy Together" and on Saturday, May 13th Saychia Wayka and Corbin Welch were honored for "Student of the Year" at the banquet. The awardees were present with smiles on and surrounded by family. The evening started with a reception and then the banquet followed. The banquet included good food and proud moments as the youth went on stage to accept their "Student of the Year" plaques.

The individuals submitting

nominees were asked to explain how the nominee demonstrated exceptional promise in the following areas: Respect for self, other, and the environment; Personal growth and character; Academics: grade level/developmentally appropriate; Sound judgment; Creativity; Appreciation for work done well by others; Cultural knowledge; practice of traditional ways; tribally enrolled; and Gifted and Talented programs. Saychia Wayka who is in twelfth grade was nominated by Jeff DePerry and Corbin Welch who is in seventh grade was nominated by Harold Katchenago. The evening ended with all the awardees taking a group picture.

On the Trail Home

Rose M. Bowman

Rose Marie (Creapeau) Bowman, age 91, of Bowler, passed away at her home on Monday, May 15, 2017. Rose was born on March 4, 1926 in Keshena to the late George and Delia (Kaquatosh) Creapeau. Rose was united in marriage to Lyle "Jylie" Bowman on September 13, 1944 and together they raised three children in Milwaukee. In 1982, they moved to their summer home in Red Springs. She enjoyed traveling with her husband and playing bingo. Rose spent winters in California with her niece and nephew, Evelyn and Ted Sander. Rose loved spending time with her family and was a loving mother, grandmother and great-grandmother. She will be deeply missed by her family, including her many nieces and nephews.

Rose is survived by: her children, Eva Bowman of Gresham, Jyles

"Weegie" (Joan) Bowman of Gresham and Donna (Brian) Coyhis of Bowler; grandchildren, Lisa (Rick) Petrich, RoseAnn (Nathan) Strege, Paul (Valerie) Bowman, Sloane (Kashsa) Coyhis, Mark Coyhis, SunShine Bear, Reyna Bowman, Christinee Bowman, Sha'rae Bowman and Morning Star Bowman; great-grandchildren, Robert Petrich, Joseph Petrich, Kimberly Petrich, Derek Bowman, Devon Strege, Paul Bowman, Jr., Anthony Strege, Xavier (Mandy) Montez, Avery Coyhis, Ella Coyhis, Charles Bear, Shannon Bear, Manny Bear, Jeremy Bear, Aiden Bear, Jesse Bear and Eva Bear; and a great great-grandson, Malcolm Bear. She is further survived by her sisters, Theresa Wilson and Sharon Gardner.

She was preceded in death by: her husband, Lyle "Jylie" in 2005; her parents; her brothers, George, Marvin, Lawrence and Raymond; and sisters, Delores Moede, Evelyn Snow and Vera Creapeau.

Memorial services for Rose were held on Thursday, May 18, 2017 at Swedberg Funeral Home in Gresham with Rev. Ervin John officiating. Inurnment will be in the Gresham Public Cemetery. Visitation was held at the funeral home until the time of the service.

The family wishes to extend a special thank you to Marie Putnam for all her help as well as to Cheryl Pieper, Lillian Bielke and her niece Cheryl Vallier, for their help caring for her.

Open to Public

Water continued from page Two: If present, elevated levels of lead and copper can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing.

Stockbridge-Munsee Public Utilities is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water that must provide the same protection for public health.

When coliform bacteria are found, special follow-up tests are done to determine if harmful bacteria are present in the water supply. If the standard is exceeded, the water supplier must notify the public by newspaper, hand delivery."

Do I need to take special precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immune-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Water Drinking Hotline (800-426-4791).

Definitions & Acronyms:

In this table you will find many terms and abbreviations you might not be familiar with. To help you better understand we've provided the following definitions:

Action Level (AL) - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Maximum Contaminant Level - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal - The "Goal" (MCLG) is the

level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Treatment Technique (TT) - A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

Variations and Exemptions: Permission was granted in 2015 via waiver not to meet the MCL for asbestos due to no asbestos pipe in the distribution system.

Compliance with Other Drinking Water Regulations

Total Coliform: "Water systems are required to meet a strict standard for coliform bacteria. Coliform Bacteria are used as indicators to a problem with disinfection and not necessarily a threat to humans."

How can I get involved?

If you have any questions, concerns or would like to provide input on the review or renewal of

the asbestos exemption please feel free to contact the Public Works Department (715) 793-4854.

Summer Markets and Gardens at the College of Menominee Nation

The growing season is here and for many that means the pursuit of fresh, local food has begun. Whether it's gardening, foraging, or keeping backyard chickens, procuring your own food is a great way to keep your body healthy and stay connected to the Earth. The College of Menominee Nation (CMN) is offering several opportunities for gardening and local food this summer.

The CMN campus garden is now accepting volunteers to participate in a Worker Share Program. Volunteer your time in the CMN campus garden this season in exchange for a share of the harvest. Program participants will volunteer four hours per week from late May through early October and receive a box of produce with an average value of \$25 each week. For example, a share box might include: ½ lb. arugula, 2 lb. green beans, 2 lb. beets, 1 bunch cilantro, 2 lb. cucumbers, 1 head lettuce, 1 bunch parsley, ½ lb. peas, ½ lb. spinach. Harvests will vary each week and include everything from broccoli to squash to tomatoes. This is a great opportunity for those without home garden space or those looking to learn new gardening skills. Both Menominee and Stockbridge members are encouraged to apply, but space is limited, so apply soon if interested.

The *Kehtekaewak* (Menominee for "They eat food") Farmers' Market will be held on Fridays from noon to 5 p.m. in the Sustainability Development Institute (SDI) parking lot at the CMN Keshena campus, N172 State Highway 47/55. Running June 2 through October 13, the *Kehtekaewak* Farmers' Market will offer produce, meats, crafts, arts, music, and prepared foods made in and around the Menominee Reservation. Credit, debit, and Foodshare QUEST cards will be accepted, and both Foodshare and Menominee Food Distribution Program participants will receive a dollar-per-dollar match on all fresh food purchases.

The *Kehtekaewak* Farmers' Market is not only a great place to buy local food and crafts, it's a great place to sell. Unlike many farmers' markets, this market does not charge a vendor fee. Anyone with homemade goods to sell is encouraged to participate. Don't have time? The CMN is offering a new Market Consignment Program for home-grown or home-made food products. Participants will drop off their goods before the market and decide upon a price. If items sell, CMN will pay out the sales to participants; if not, items will either be returned or donated to Food Distribution.

For home gardeners, CMN offers free tillage services for Menominee and Stockbridge tribal members. There will also be a free plant give-away during the first *Kehtekaewak* Farmers' Market on June 2. Slicing tomatoes and cherry tomatoes, bell peppers, cabbage, broccoli, and kale plants will be given away to all community members and visitors. Nearly 1,000 plants are available, but typically go fast. Those interested are invited to come early to get their gardens started.

UW-Extension and CMN are also partnering to offer 4-H Garden Clubs for children and families. Special emphasis is placed upon connecting Menominee traditions and language to garden activities. Meetings are held in Keshena at the CMN campus the 4th Tuesday of each month from 5 to 6:30 p.m. The Neopit Woodland Boys and Girls Club is also hosting 4-H Garden Club meetings the final Thursday of each month from 5 to 6:30 p.m. Participants will learn traditional skills, Menominee language, and enjoy a meal with fresh produce all in a family-friendly setting.

Home gardeners that can't get enough are encouraged to volunteer in school gardens maintained by CMN at the Keshena

Attack cont from page One:

- Reset passwords using complex algorithms such as; minimum of 8 characters, alpha-numeric with one special character.
- Perform Windows "critical" Updates.
- Update anti-virus definitions daily and run frequent scans.
- Install and run free trial of Malwarebytes Program.

Do the following:

- Keep music/video streaming at a minimum as this is another entry point for vulnerabilities.

- Keep Social Media consumption at a minimum as this is another entry point for potential threats.
- Be sure you know who items are coming from before opening attachments.
- Do not download and install software on to your computer without checking credentials on the site.
- The use of thumb drives are fine; but make sure you are scanning the drive for viruses.
- Do not share your password with anyone and do not write it on a sticky note placed by your computer.

Spring cont from page One:

and we added tire recycling to our efforts. Paper, 108 tons; Electronics/Appliances, 195 tons; Aluminum, 65 tons; Glass, 50 tons; Steel/Metal, 7 tons, Plastic, 26 tons; Co-Mingled Recyclables, 14 tons; and Florescent Bulbs,

1,261 bulbs.

Speaking on the success of the program, Schreiber said, "This program encourages people to recycle and be good to the environment and it seems that it's becoming a routine."

Primary School and the Woodland Boys and Girls Club in Neopit. These gardens will serve as learning tools for students and children throughout the summer and fall, and the community is encouraged to help out.

Those interested or having questions about any of the gardening or market programs offered by the College of Menominee Nation this summer may contact Sam Knapp, AmeriCorps VISTA volunteer, at 715-799-6226, ext. 3154,

or sknapp@menominee.edu. For information about 4-H Garden Clubs, contact either Sophie Teller (715-799-6226 ext. 3234, sofie.teller@ces.uwex.edu) or Jennifer Gauthier (715-799-6226 ext. 5713, jennifer.gauthier@ces.uwex.edu). For those interested in volunteering time in the Keshena Primary School or Woodland Boys and Girls Club gardens, please contact Amanda Reiter at 715-799-6226 ext. 3148, or amreiter@menominee.edu.

June 2017

Fruit & Vegetable of the Month: Watermelon

Nutrition

Most may think of watermelon as a sweet summer treat or for those famous watermelon seed spitting contests at Family Reunions and summer picnics but this fruit is vitamin filled and hydrating. Some of these vitamins include vitamin A, B6, C, along with potassium and lycopene.

The vitamin A is optimal for eye health and boosting immunity by enhancing infection-fighting power of white blood cells. Vitamin B6 aids in the creation of antibodies, these help fight diseases and illnesses. Vitamin C increases your body defense systems against infections and viruses, we all know too well about those summer colds that seem to go around.

Fun Watermelon Facts

- Watermelon is 92% water which supports hydration
- The antioxidant Lycopene found in watermelon can aid in sun protection
- It is naturally cholesterol-free, fat-free, and sodium-free
- There are only 80 calories per serving (2cups)

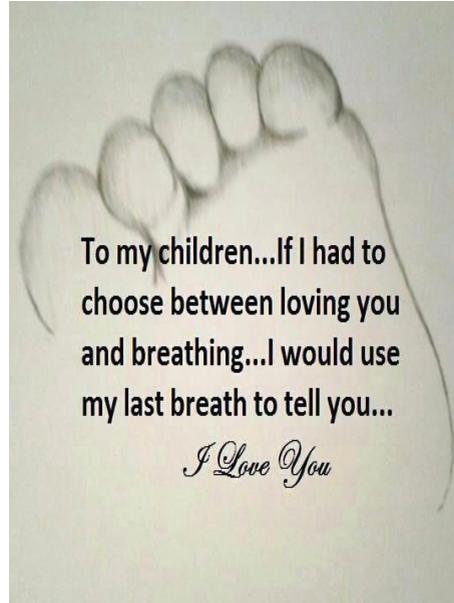

Watermelon Salsa

Ingredients

- 3 cups finely diced seedless watermelon (about 2.25 lb. with the rind)
- 2 jalapenos peppers, seeded and minced
- 1/3 c chopped cilantro
- 1/4 c lime juice
- 1/4 c minced red onion
- 1/4 t salt or to taste

Preparation

Place watermelon, jalapenos, cilantro, lime juice, and onion in medium bowl; stir well to combine. Season with salt. Serve at room temperature or chilled.

To my children...If I had to choose between loving you and breathing...I would use my last breath to tell you...

Following is the Ordinance governing the Many Trails Park and Camping From Chapter 16 – Public Peace and Good Order Ordinance

Section 16.21 Park Rules

(A) Regular Park Rules. All persons using the tribal park facilities shall abide by the following special terms and conditions:

(1) Camping is permitted in designated camping areas only.

(2) No fires are permitted except in designated campfire areas. Only firewood that was gathered from within the geographic boundaries of the townships of Bartelme or Red Springs may be used for campfires.

(3) There shall be no littering of any kind inside park boundaries. Garbage and recycling containers shall be used, as appropriate, to dispose of waste materials. If no garbage or recycling container is provided, then waste materials must be packed out.

(4) Defacing of any park property or vegetation is strictly prohibited.

(5) The maximum speed limit on park and campground roads is 15 m.p.h.

(6) Through traffic is prohibited on the campground road when the Pow Wow or other tribal functions are scheduled in the park area.

(7) Fishing (by tribal member or those with required permits) in the river is prohibited in designated swimming areas, when swimmers are present.

(8) Excessive noise is prohibited.

(9) Campers shall observe established campground rules.

(10) No alcohol shall be allowed in any tribal parks from the hour of 10 p.m. until the hour of 10 a.m.

(11) After 8 p.m., no minors are allowed except if accompanied by a responsible adult, such as a parent or guardian.

(12) Fireworks are not permitted.

(13) Any visibly intoxicated, boisterous, or discourteous person(s) will be subject to immediate removal in addition to any other penalties.

(14) There shall be no parking in private driveways without the land assignee's permission.

(15) No weapons or firearms are permitted at any time, other than those carried by official law enforcement personnel.

(16) Camping is by permit only.

(a) Permits are available to Tribal members from the Property and Equipment Department, Monday through Friday 8 a.m. to 4:30 p.m., and shall be available online at the Tribe's website.

(b) Tribal Members and their family and/or guests may camp.

(c) All campers must abide by all Tribal rules and regulations.

(d) If the camper will utilize electricity, a \$3.00 charge per night must be paid prior to permit being issued.

(e) Permits are subject to revocation if rules and regulations are violated and the applicant may be barred from applying for camping permits in the future.

(17) Use of the park, including the campground, by others may be granted by Tribal Council upon such terms and conditions as the Tribal Council shall deem appropriate.

(B) Additional Rules for Pow Wow Weekend and Other Special Tribal Events.

During the annual Pow Wow weekend and five (5) days before and after Pow Wow weekend, and other special Tribal events that may arise, the following additional rules apply:

(1) Stockbridge-Munsee Police Department shall coordinate overall security at the event(s). The Police Department will work with the event's organizers to identify security needs and security personnel that the organizers need to provide.

(2) No alcohol is allowed in the entire park, including the campground, at any time.

(3) Quiet time shall be from 8 p.m. to 10 a.m.

(4) Camping, parking, and vending shall only be in designated areas.

(5) No pets or other animals are permitted at any time, other than service animals.

(C) Penalties and Enforcement. In addition to any other penalty, including criminal charges:

(1) Citations against minors may also be issued against the parent(s) or guardian of the minor.

(2) Violators are subject to immediate removal and eviction from the event and are subject to being banned for up to 12 months.

(3) Vehicles may be towed from the park at the owner's expense.

(4) Alcohol, fireworks, weapons, firearms or other dangerous or illegal items are subject to confiscation.

POW-WOW CAMPING PERMITS ARE FIRST COME FIRST SERVE PLEASE CONTACT STACEY SCHREIBER AT 715-793-4854 FOR A PERMIT

Church of the Wilderness
Crossways Camping Ministries
Vacation Bible School
June 19th to the 23rd

Children from kindergarten to 6th grade are invited from our congregation and the community.

VBS starts at 1:45 p.m. and ends at 5:00 p.m.

For kids attending summer school, at Bowler, the school bus will drop them off after school. If your kids are not attending summer school, please have them to the church by 1:45. Children will need to be picked up at 5:00. Sign up forms will be available at the church or by calling 793-4975 and leave a message.

Gresham Scholarship Fund (GSF) offering Community Scholarships

Gresham Scholarship Fund is offering a Community Scholarship for any community member who has completed one semester in a post-secondary education institution with a minimum grade point average of 2.0.

Gresham Scholarship Fund is planning to give up to three \$1250 awards in 2017. Applications are due June 30 by 4:00 p.m. Applications are available at Gresham Community School Office, or at:

<https://www.cffoxvalley.org/scholarship-type/college-and-non-traditional/page/2/>

[traditional/page/2/](https://www.cffoxvalley.org/scholarship-type/college-and-non-traditional/page/2/)

Scroll down the list to the link (Shawano Area Community Foundation Gresham Scholarship Fund Community Scholarship) to download both the application instructions and application form.

For details, contact the Community Foundation of the Fox Valley office (920) 830-1290 or Robert Klopke (715) 787-3386.

GSF has enjoyed great support from the community and is in a position to expand upon its mission to assist individuals in furthering their education, Klopke said.

Menominee and Stockbridge Win Awards

Menominee and Stockbridge-Munsee won Awards at the 38th NINAETC & P.L.102-477 National Indian Employment and Training Conference. The Conference theme was "Weaving Native Pathways To Success" and was held in Los Angeles, California from May 21-26th. Sue Blodgett is the Menominee Indian Tribe of Wisconsin P.L.102-477 Director and for Stockbridge-Munsee: Miranda Vele is the Education, Employment, and Training Case Manager; Patsy Elmergreen is the Accountant; Chris Miller, is

the Education Administrative Assistant; and Dr. Jolene Bowman is the P.L. 102-477 Director. Currently the tribe contracts under P.L.102-477 with the Bureau of Indian Affairs (BIA) -Higher/Adult/Other Education programs and the Department of Labor (DOL)-Workforce Innovative Opportunity Acts (WIOA) Adult/Youth programs. Both awardees were surprised with the awards being presented at the Tuesday, May 22nd morning Plenary Session.

Attention all Tribal Health Fund Participants!!

There have been changes made to the Tribal Health Fund policy. Letters will be coming in the mail along with a copy of the policy and the signature page stating that you received and read the policy. The signature page must be signed and returned to the Tribal Health Fund department. If you have any questions, please contact: Jodie Davids, THF Specialist at 715-793-5030 or 1-877-633-3863, or Melodi Thiex, Assistant Director at 715-793-5011.

Are you Prepared?

Nearly half of U.S. adults do **NOT** have the resources and plans in place in the event of an emergency.

Store at least a **3-day supply** of non perishable, easy to prepare food.

Store a **3-day supply** of water: one gallon per person, per day.

48% of Americans do **NOT** have emergency supplies.

44% of Americans do **NOT** have first aid kits.

20% of Americans get emergency info from mobile apps. Keep a charger handy in an emergency.

20% of Americans use social media for alerts and warnings. Make sure to keep a charger handy in an emergency.

52% of Americans do **NOT** have copies of crucial personal documents.

Don't forget your pets! You need a **3-day supply** of food and water per pet.

Prepare supplies for home, work, and vehicles.
Emergencies can happen anywhere.

Before You Plant

By Kellie Zahn, Agriculture Agent

May is here and the time for garden planting is right around the corner. As the weather starts to get warmer I know it is hard to resist the urge to start planting, but here are a couple of things to think about before you put your seeds in the ground.

Before you plant your transplanted tomato or pepper plants it is important to remember that typically, the average last frost for this area is near mid to late May.

Temperature sensitivity may vary slightly per variety, but extended hours below freezing can seriously damage or kill your plants. If a light frost has occurred and your plants are outside it is best to let them thaw naturally with the heat of the day, once the plant has thawed remove any dead leaves to help protect the plant from disease that could enter through the dead foliage.

Before planting it is always a good idea to check your soil temperature. Seeds can germinate at a variety of temperatures, so it is always a good idea to reference your seed packet germination temperature verses the soil temperature.

Planting before the soil is warm enough could damage the seeds and cause them to rot. Mounding

the soil into rows in your garden can help speed up the rate of the temperature increase in your garden. Mounding the soil will increase the surface area exposed to the sun thus helping it heat more rapidly. Happy planting!

For any Elders looking for assistance planting your garden, Kellie Zahn and Diane Burr, will be helping with garden plantings on the following dates:

Monday, May 22, 11 a.m. - 2 p.m.
Tuesday, May 23, 1 p.m. - 4 p.m.
Thursday, May 25, 1 p.m. - 4 p.m.

There is a signup sheet at the Elderly Center or contact Kellie Zahn at 715-793-3031 or email kellie.zahn@mohican-nsn.gov.

If these dates don't work for you, contact Kellie to set up another time.

Education

Wisconsin Indian Education Association Conference

The 2017 Wisconsin Indian Education Association Annual (WIEA) Conference was held in Minocqua at The Waters of Minocqua from May 12th-13th and the theme was "Mino-Ayaa'Iddiwin –Let's Be Healthy Together. The conference serves as an opportunity to bring together adults, youth, educators, and businesses interested in Indian education.

within schools, having a healthy education, incorporating cultural within the schools, College Horizons partnership with Lawrence University, and having a voice in your State School Plans under Every Student Succeeds Act (ESSA). The deadline to submit comments for Wisconsin's Consolidated (ESSA) Plan is Friday, June 30th. Here is a link to the Wisconsin's Consolidated draft ESSA plan for you to review and to give public comment www.dpi.wi.gov/esea.

The WIEA Conference Keynote Speakers included; Ahniwake Rose who is the Executive Director of the National Indian Education Association, Justin Huenneman who is the CEO of the Notah Begay Foundation (NBIII), Ricky White who is the Superintendent of the Circle of Life Academy in White Earth, MN, and Jim Bouché who is the Principal and Superintendent at Lakeland Union High School. In addition to the keynotes, there were 32 presentations/workshops, a pow-wow, Youth Day activities, and an Awards Banquet.

DO NOT WORRY! If you want to submit comments, but want assistance we will have a template letter available for you to modify accordingly. To attain this assistance please call Miranda Vele at 715-793-4582, by email Miranda.vele@mohican-nsn.gov, or stop at the Education office anytime during office hours starting Friday, June 16th.
